Illustrative Momentum Score

Parameter	RSI (Daily)	RSI (Weekly)	21-Day SMA	10-Day SMA	Parabolic SAR (Daily)	MACD Histogram (Daily)
Value	52.74	39.80	0.340	0.310	0.265	0.0040
Trend Indication	↑	↓	↑	↑	↑	↑

Observations: The leading indicator RSI (14-period) is above the midpoint on the daily chart, indicating an upside momentum in the stock; however, the weekly RSI is below the midpoint. The current market price (CMP) is above the trend-following indicators 21-Period SMA, 10-Period SMA and Parabolic SAR, further supporting a positive bias. Moreover, the MACD histogram is also trading in positive territory.

Data Source: REFINITIV, Analysis: Kalkine Group; Note: Momentum score is based on certain criteria's been met for technical indicators such as Relative Strength Index (RSI), Simple Moving Average (SMA), Parabolic SAR, and MACD Histogram.

Financial Data and Interactive Charting Interface for Quick Decision Making

Kalkine's platform provides the company's financial data, related news, and announcements, along with an interactive charting capability to help its users gauge the current stock price action, visualize any short-term and long-term trading signals, and customize the chart by selecting trading indicators.

Quick Updates on Consumer Staples Space

Food retailing has registered a 13th consecutive monthly uptick, primarily driven by rising food inflation. Food retailing increased by nearly 1.0% MoM and stood at \$ 14.01bn in March 2023

In March 2023, the household spending increased by 8.2% PcP on calendar adjusted basis. Spending for services and goods increased by 11.4% and 4.8% PcP, respectively

Spending on food rebounded with a 2.4% QoQ uptick following 4 consecutive dips in December 2022 quarter, primarily attributed by gradual improvement in fruit and vegetable supply

Businesses in cafes, restaurants & takeaway food services are passing through their cost inflation to consumers via price rises. The cafes, restaurants & takeaway food services advanced by 1.5% MoM and stood at \$ 5.32bn

Source: Based on Industry Dataset Data Analysis: By Kalkine Group

CONSTRUCTIVE INDICATORS

On 10 May 2023, the government announced the 2023-24 budget, unfolding its agenda towards its investment portfolio. \$ 61.4mn is expected to be funded to support the operation and establishment of the National Reconstruction Fund (NRF) corporation. Establishing the \$ 394.4mn Industry Growth Program may help small and medium enterprises (SMEs) to commercialize ideas and generate business growth.

GROWTH PROSPECTS

An additional \$200mn is expected to replenish the Major Projects Business Case Fund (MPBCF) to develop strategically significant projects. The Thriving Suburbs Program was funded with \$200mn over the two years from 2024-25 to address the shortfall in priority community infrastructure. The \$150mn Urban Precincts and Partnerships Program is expected to support the transformation investment

KEY RISKS TO CONSIDER

Total private new capital expenditure in the construction industry slipped by 13.3% QoQ and 9.9% PcP in the December 2022 quarter. In March 2023, the seasonally adjusted estimate for the value of the total building slipped by 5.9% MoM. In December 2022, the total dwelling commencements declined by 6.7% QoQ and 21.9% PcP to 41,374 dwellings.
